Professional Bosch Power Tools meet the highest Quality standards!

For this reason, we have extended the warranty to you.

For all professional blue power tools and measuring tools purchased on or after September 1st 2004, you will receive 3 years warranty - free of charge!

The prerequisite for a warranty extension is that you register your tool on the Internet within 4 weeks of purchase. The warranty period begins on the date of purchase.

The warranty extension applies to all Professional Blue Bosch Power Tools and Measuring Tools. High Frequency Tools, Production Cordless Screwdrivers, Air Tools, supplied accessories, battery packs and battery chargers are excluded.

To register your product, please log on as a user first. On your personal registration page you can then register your power tool for the warranty extension, print out your warranty certificate in PDF format and manage your personal data.

In principle, warranty certificates are machine-dependent, i.e. each purchased tool must be registered separately. In the event of a warranty claim, the certificate must be submitted to your retailer together with the original receipt of purchase. The data on both documents must match.
